## INTRODUCTION

Junior MERN Stack Developer with hands-on experience building responsive frontend applications using React and Tailwind CSS. Strong foundation in JavaScript, UI development, and component-based design through structured training and real projects. Actively seeking an entry-level role to grow in a production environment.

## SKILLS

JavaScript (ES6+), React.js, HTML5, CSS3, Tailwind CSS, Git & GitHub, Node.js, Express.js

## Projects

### Fruit Market Sales Management System

- Desktop application built using C# (.NET Framework) and SQL Server
- Manages daily sales, cash/debt records
- Implemented CRUD operations, reporting, and data validation logic

## EXPERIENCE

### MERN Stack Developer (Training) – Encoder Bytes

- Completed a 3-month intensive MERN Stack training program
- Built responsive UI components using React, Tailwind CSS, HTML, and JavaScript
- Practiced Git & GitHub for version control and collaborative workflows
- Developed small projects applying component reusability and clean UI principles

## EDUCATION

Bachelor of Software Engineering  
Abasyn University Peshawar (2021 – 2025)

## CERTIFICATES

- JavaScript Certificate
- Mern Stack Certificate
